40,000 simulated deployments, one square per 40

error budget α = 20%: at most 1 in 5 answers may be wrong

answered nothing (892)

answered and kept the promise (94)

answered and broke the promise (14)

WHAT GETS REPORTED

1.4% of all deployments broke the promise.

✓ Valid: under the 5% target.

HOW OFTEN THE MODEL MAY SPEAK

10.9% of deployments answered any question at all.

The other 89.1% answered nothing.

WHAT A HOSPITAL GETTING ANSWERS SEES

13.2% of the deployments that answered broke the promise.

✗ 2.6× the 5% target.
